## Cyclists BE SEEN

As a vehicle under the Highway Traffic Act of Ontario, a person on a bicycle any time between ½ hour before sunset to ½ hour after sunrise must have white reflectors on the front forks and red reflectors on the rear forks, as well as a front white light and a rear red light or reflector. Bicycles at night can be hard for motorists to see, so be seen and stay alive.

This traffic safety fact is provided by the Springwater Community Policing Committee in consultation with the Huronia West OPP.
