

Meeting the Needs of our Most Valued Partners

Confirming our Commitment to Employee Care

We Need You To Know

If you contract the virus and are **forced to isolate, you will still be paid.**

If you contract the virus and are **forced to isolate, you will not be sent home.**

If you contract the virus, **you will receive medical care as needed.**

We Need You To Be Aware

Visiting a medical professional will not make you sick, **testing locations are safe.**

Healthcare providers **take measures to protect patients from infection.**

You may have **contracted the virus and not have any symptoms or signs of infection.**

We Need You To Get Tested

If you have any symptoms; **a sore throat, runny nose, nasal congestion, shortness of breath, or difficulty breathing.**

Even if you do not have any symptoms or feel sick. **You can carry the virus without any signs of infection.**

Regardless of how you were hired.

It is up to all of us to stop the spread of the virus and to protect our families, friends, and coworkers from illness. This virus affects everyone differently; some people may not show any symptoms, while others may become dangerously ill. It is important that we all receive testing and then follow the directions of our medical professionals in order to stop the spread of the virus and keep our community safe and healthy.
